

ARAD Ltd. Quality Policy

ARAD Ltd. has developed a Quality Management System based on the requirements of international standards: ISO 9001, ISO/IEC17025, water measurement regulations, European directive MID 2004/22/EC.

The company places high emphasis on continually improving its processes and products to meet or exceed customer's requirements.

ARAD Ltd. adopts the principles of 'Process Management' and continually builds a culture of continuous improvement within the organization with the aim of:

- Identifying and eliminating all forms of wastes that do not bring value to the customer.
- Creating competitive advantage for the whole operation.
- Providing high quality products and service to fully satisfy customer requirements.
- To deliver correct, defect free products to our customers on time and within budget.
- Creating work environment free of commercial or other pressure on employees which might affect the quality of their work.

Specific objectives and targets are established and reviewed at the regular management review meetings.

The company uses training and communication to all employees to ensure this policy is understood and implemented.

All test benches operators that are involved in testing and calibrating the water meters are familiar with Arad's quality procedures and implement it in their work.

As General Manager I am fully committed to ensuring the implementation of and continual improvement of this quality management system.
